

# Commercial Pilot License (CPL) Training Programme

## Are you a future #CAEpilot?

CAE Gondia offers a focused 19 month programme designed to prepare you to become a professional airline pilot. All courses meet International Civil Aviation Organization (ICAO) and Directorate General of Civil Aviation (DGCA) syllabus standards. Upon successful completion, you will have obtained all appropriate ab-initio ratings including your Commercial Pilot License (CPL) with Instrument Rating (IR) and Multi-Engine Rating (ME).

You will be trained using best practices developed from CAE's extensive experience in training professional pilots throughout CAE's worldwide training centre network, where tens of thousands of airline and business aviation pilots train every year.

### Programme Type

Commercial Pilot License (CPL)  
Training Programme

### Location

CAE Gondia, India

# Commercial Pilot License (CPL) Training Programme

## Course Outline

### Phase 1: Ground School

The first four months of training are dedicated to studying aviation theory and gaining a solid comprehension of both maths and physics. This phase is delivered by our experienced ground school instructors in fully air-conditioned, modern classrooms.

Ground school subjects include:

- Meteorology
- Air regulations
- Radio transmission
- Navigation training
- General technical training
- Aircraft-specific technical training (DA40 / DA42)
- Sound knowledge of maths and physics will help you master your ground school

Our instructors will prepare you for the mandatory Directorate General of Civil Aviation (DGCA) examinations. The exams will be taken according to the DGCA schedule and spread out over the whole course of your training programme.

### Phase 2: Flight Training

This is what you really come to Flight school for. You'll take off with our experienced flight instructors in our new Diamond trainer aircraft. And when you land after your first solo flight, it's a rush you'll never forget.

Flight training is divided into various lesson elements:

- 20 hours DA40 simulator
- 10 hours DA42 simulator
- 185 hours DA40 CS single-engine aircraft
- 15 hours DA42 multi-engine aircraft

## Investment & Funding

Commercial Pilot License (CPL) Gondia: NR 4,200,000/- +

Pricing is exclusive of appropriate taxes as per location and is subject to change.

### What's included?

- Complete ab-initio training programme
- All course materials
- Text books
- Uniforms
- Transportation between the campus and the Birsri airport

### What's not included?

- Accommodation
- Meals
- DGCA exam fees

## Assessment & Selection

CAE NFTI will review applications and assess whether the eligibility criteria for the program has been met. Successful candidates will be invited to the assessment center.

### CAE Aircrew Selection System (CASS)

This assessment day will cover:

- Computer-based testing
- Pilot aptitude, including hand/eye co-ordination motor skills and spatial awareness
- Academic, mathematical and technical capacity
- A multiple choice test of technical reasoning

## Eligibility requirements

- Aged between 17 to 32
- Indian nationality, or hold an Overseas Citizenship of India
- Candidate should pass Physics, Mathematics & English in (10+2) exam or equivalent to 10+2 with a minimum score of 55% individually in Physics & Mathematics
- Possess a valid Indian Class II medical certificate / CA Form 35 issued by DGCA Doctor (prior to assessment stage)
- Produce a valid DGCA-issued Class 1 medical certificate with no limitations (prior to course induction date)
- Be fluent in English – both written and verbal
- Be in good physical condition with appropriate weight and height
- Self-declaration by candidate that he/she is not under any medication or possess any mental health issues
