

AVIATION TRAINING

# Cadet to Captain Training

Confidence through  
smarter training

**Where are your next pilots  
coming from?**

**Right here.**

With training programs that span the entire career life cycle of a professional pilot, CAE can provide your commercial airline with solutions that address all of your pilot sourcing needs. Our solutions are flexible and can be completely tailored to suit your airline's training requirements.

Theoretical  
& flight training

Multi-crew  
cooperation

Jet Orientation  
course

Initial, conversion  
& recurrent training

## Cadet sourcing & training

CAE trains aspiring pilots through its network of aviation academies located in multiple locations, all over the world. A range of training programs are available including, Commercial Pilot License (CPL), Airline Transport Pilot Licence (ATPL), and airline-mentored Multi-Crew Pilot Licence (MPL), all of which combine premier ground school courses with high quality flying instruction. Every year, 1,500+ new pilots graduate from CAE.

As the leader in the development of airline-mentored competency based cadet training programs, CAE can manage the entire recruitment and training process of new pilots for your airline. CAE will identify and train cadets, and deliver highly trained and competent first officers to your airline's specific pilot profile.

Instructor training

First officer, Captain, & Instructor resource

CAE operates the world's largest civil aviation training network. With more than 60 training locations and 2,000+ instructors across 6 continents, we train over 135,000 pilots globally each year. CAE provides type-specific training programmes for airline pilots on the widest coverage of in-production and in-service aircraft models in the industry.

CAE now offers its newest pilot training innovation, the CAE Rise™ training system. Backed industry-leading technology, CAE Rise™ enables instructors to deliver training in line with airlines' Standard Operating Procedures (SOP). Key benefits of the system include the capability to objectively assess technical competencies in real-time and to provide insightful training analytics.

## Aviation recruitment

CAE addresses the cyclical staffing needs of airlines by matching the best pilots and aviation personnel with the world's leading airlines. Our aviation recruitment services support airlines during phases of fleet expansion or in seasonal peak demands and include the sourcing, contracting and recruitment of pilots.

Depending on the specific needs of your airline, we can provide experienced first officers, captains and instructors, on lease or on a permanent basis. CAE currently has more than 1,200 pilots on assignment with over 50 airlines across the world.

# World's largest civil aviation training network

With over 300 civil aviation full-flight simulators, CAE provides training on the widest coverage of in-production and in-service aircraft models in our more than 60 global training locations.

## About CAE

At CAE, we equip people in critical roles with the expertise and solutions to create a safer world. As a technology company, we digitalize the physical world, deploying software-based simulation training and critical operations support solutions. Above all else, we empower pilots, cabin crew, airlines, and defence and security forces to perform at their best every day and when the stakes are the highest. Around the globe, we're everywhere customers need us to be with more than 13,000 employees in approximately 250 sites and training locations in over 40 countries. CAE represents more than 75 years of industry firsts—the highest-fidelity flight and mission simulators as well as training programs powered by digital technologies. We embed sustainability in everything we do.

**Today and tomorrow, we'll make sure our customers are ready for the moments that matter.**
