

Frontier Airlines selects CAE for next-generation flight operations software

Montreal, Canada, Feb. 20, 2023 – CAE today announced that it has signed a 10-year agreement to equip Frontier Airlines (NASDAQ: ULCC) with CAE's next generation of flight operations solutions. With implementation scheduled to begin later this year, CAE's cloud-based Operations Control, Crew Management and Flight Management solutions will support Frontier with the latest and most feature-rich operations software available today.

Frontier Airlines becomes the latest airline in North America to move to CAE's portfolio of next-generation solutions – the first since the acquisition of the Sabre AirCentre business in February 2022. CAE's solutions will enable Frontier to take advantage of the latest-available technology, driving step-change improvements in performance over legacy software in the optimization of flight plans, aircraft usage, and crew communication and engagement.

"We are thrilled to partner with CAE and begin integrating the latest versions of their industry-leading, comprehensive software solution," said Brad Lambert, Vice President, Flight Operations, Frontier Airlines. "As we have seen in the industry over the last few years, updating core operational software is imperative to optimize flight operations, identify flight planning efficiencies and more quickly manage disruptions and recovery."

"We are proud to have Frontier Airlines extend its partnership with CAE and become our latest customer to benefit from our next-generation flight operations solutions," said Pascal Grenier, CAE's Senior Vice President, Flight Services and Global Operations. "Frontier is positioning its business for long-term operational success, with CAE's newest solutions modernizing its operations to improve efficiency, reduce costs, and better manage disruptions. Our solutions are constantly evolving and getting better thanks to forward-looking and innovative customers like Frontier."

In addition to committed, sustained investment in its solutions, Frontier will benefit from CAE's robust delivery model, extensive experience in deploying mission-critical software in complex operational environments requiring intricate system integrations, and 24/7/365 support.

ABOUT CAE FLIGHT OPERATIONS SOLUTIONS

CAE Flight Operations Solutions is an industry-leading digital platform trusted by the world's top airlines and business aviation companies to optimize their operations. Backed by a global team and unparalleled expertise, thousands of flights and crew members are supported by CAE's Flight Operations Solutions every day.

Spanning crew, flight, movement, airport, on-board catering, and cost management, CAE's customizable end-to-end solution improves decision making by harnessing the power of integrated data and advanced technologies to improve operational performance, profitability, employee satisfaction and passenger experience.

ABOUT FRONTIER AIRLINES

Frontier Airlines ([NASDAQ: ULCC](https://www.nasdaq.com/symbol/ulcc)) is committed to "Low Fares Done Right". Headquartered in Denver, Colorado, the company operates 120 A320 family aircraft and has the largest A320neo family fleet in the U.S. The use of these aircraft, Frontier's seating configuration, weight-saving tactics and baggage process have all contributed to Frontier's continued ability to be the most fuel-efficient of all major U.S. carriers when measured by available seat miles (ASMs) per fuel gallon consumed. With more than 230 new Airbus planes on order, Frontier will continue to grow to deliver on the mission of providing affordable travel across America.

ABOUT CAE

At CAE, we equip people in critical roles with the expertise and solutions to create a safer world. As a technology company, we digitalize the physical world, deploying simulation training and critical operations support solutions. Above all else, we empower pilots, airlines, defence and security forces, and healthcare practitioners to perform at their best every day and when the stakes are the highest. Around the globe, we're everywhere customers need us to be with more than 13,000 employees in more than 200 sites and training locations in over 40 countries. CAE represents 75 years of industry firsts—the highest-fidelity flight, mission, and medical simulators, and personalized training programs powered by artificial intelligence. We're investing our time and resources into building the next generation of cutting-edge, digitally immersive training and critical operations solutions **while keeping positive environmental, social and governance (ESG) impact at the core of our mission.** Today and tomorrow, we'll make sure our customers are ready for the moments that matter.
