Cabin Crew Training

Confidence through
smarter training

Who can best source and train your cabin crew?

We can.

With years of experience in recruitment and high-standard cabin safety training in 9 dedicated facilities worldwide, CAE helps you secure the best cabin crew talent. Join a growing list of airlines already counting on us for crew sourcing and customized training programs. Make CAE your cabin crew training partner of choice.

At CAE, we equip you with the necessary skills to be at your best while in the sky.

Training

CAE offers a combination of theoretical and practical training delivered by qualified instructors and is available at our training locations across the world or at your airlines' local operations.

The following list of standard courses can be tailored to your airline's requirements:

- Initial Safety Training
- Conversion & Differences Training
- Annual Recurrent Training and Checking
- Refresher Training
- Senior Cabin Crew Training
- Cabin Crew CRM Training
- Medical Aspects & First Aid
- Emergency Equipment Training
- Water Survival Training
- Fire & Smoke Training
- Dangerous Goods

Customized courses

Standard courses can be tailored to your specifications or we can design completely new courses based on your airline's needs. Courses can be developed incorporating your brand, training philosophy and your Standard Operating Procedures.

Train the Trainer - Cabin Crew Instructor Training

Our instructors provide cabin crew instructor training to enable your cabin crew to further develop their professional skills and to ensure that they can then pass on these skills and expertise throughout your training organisation.

Cabin crew recruitment & selection

CAE can assist your airline in locating and attracting the best cabin crew talent.

We specialize in implementing tailored recruitment campaigns meeting the individual needs of your airline, including:

- Creation of ideal candidate profile
- Manage application process & assessment
- Provision of aptitude testing and personality profiling
- Interview & teamwork skills evaluation
- Language testing

For startup airlines

In addition to cabin safety training and recruitment solutions, CAE also offers consultancy services to startup airlines. This support covers both pilot and cabin training, including the following elements:

- Development of training manuals
- Assisting the Regulatory Approval Process with local National Aviation Authorities (NAA)
- Licensing and Certification Processes
- Monitoring NAA Audits

CAE's growing range of cabin safety training customers, including AirAsia, Latam, SAS, Vueling and Kenya Airways is testament to the quality of our training.

Worldwide cabin safety training

With nine cabin safety training locations across three continents, CAE trains thousands of cabin crew every year. We can provide cabin safety training on the following training equipment at each location outlined below.

About CAE

At CAE, we equip people in critical roles with the expertise and solutions to create a safer world. As a technology company, we digitalize the physical world, deploying software-based simulation training and critical operations support solutions. Above all else, we empower pilots, cabin crew, airlines, and defence and security forces to perform at their best every day and when the stakes are the highest. Around the globe, we're everywhere customers need us to be with more than 13,000 employees in approximately 250 sites and training locations in over 40 countries. CAE represents more than 75 years of industry firsts—the highest-fidelity flight and mission simulators as well as training programs powered by digital technologies. We embed sustainability in everything we do.

Today and tomorrow, we'll make sure our customers are ready for the moments that matter.
