

Trade Press Release

CAE's Dassault Falcon 7X and Falcon 2000 EASy series full-flight simulators in London first to be qualified to Level D for EASy II configuration

Shanghai, China, April 15, 2013 – (NYSE: CAE; TSX: CAE) – CAE today announced at the Asian Business Aviation Conference & Exhibition (ABACE) that two of its simulators, the Dassault Falcon 7X and the Dassault Falcon 2000 EASy, located at the CAE London training centre in Burgess Hill, UK, have received Level D qualification by the European Aviation Safety Agency (EASA) for the new EASy II avionics package.

These new programs, part of a Dassault Authorized Training Provider agreement, allow CAE to be the first training provider to deliver training with the latest EASy II avionics for the 7X and 2000 EASy series.

"We are pleased that our long-time partner Dassault continues to trust CAE's training solutions to support Dassault pilot training programs," said Rob Lewis, CAE's Vice President and General Manager, Business Aviation, Helicopter and Maintenance Training. "We will continue to offer cost-effective and industry-leading solutions to address the specific training needs of our customers."

CAE became the first training provider for the Falcon 7X in 2007. CAE was also the first in the industry to provide EASA- and FAA-approved simulator training for the new Dassault EASy II cockpit on the Falcon 900 EASy series.

CAE currently provides training for all in-production Falcon aircraft, including the Falcon 7X, the Falcon 900 EASy series and the Falcon 2000 EASy series, as well as some earlier models such as the Falcon 10/100, Falcon 900 and Falcon 50/50EX. CAE Dassault Falcon training programs are available in Dubai, UAE; London, UK; Dallas and New York, USA, and are qualified by the European Aviation Safety Agency (EASA), US Federal Aviation Administration (FAA) and other regulatory authorities.

In January 2013, Dassault Aviation awarded CAE with a Falcon Training Policy Manual (FTPM) certificate, which validates that CAE is delivering superior quality training services for Falcon pilots and maintenance personnel. The FTPM is the highest level attainable by a Dassault Authorized Training Provider (DATP).

About CAE

CAE is a global leader in modelling, simulation and training for civil aviation and defence. The company employs approximately 8,000 people at more than 100 sites and training locations in approximately 30 countries. CAE offers civil aviation, military and helicopter training services in more than 45 locations worldwide and trains approximately 100,000 crew members yearly. In addition, the CAE Oxford Aviation Academy offers training to aspiring pilot cadets in 11 CAE-operated flight schools. CAE's business is diversified, ranging from the sale of simulation products to providing comprehensive services such as training and aviation services, integrated enterprise solutions, in-service support and crew sourcing. The company applies simulation expertise and operational experience to help customers enhance safety, improve efficiency, maintain readiness and solve challenging problems. CAE is now leveraging its simulation capabilities in new markets such as healthcare and mining. www.cae.com
